## The Representation Question.

The Toronto organ of the Government says -" Mr Brown is sorely distressed by if needed, provided such charges combined dia. a contemplation of a moderate settlement of the Representation Question." Will the Leader be kind enough to inform "half-a Continent" what he means by "Moderate settlement 1" Does this imply the representation of 300,000 codfish in Gaspe Bay? or the altering of the boundaries of a few constituencies like Montreal and Toronto, so as the more effectually to influence the electors and thereby secure Moderate representatives If all accounts be true, they have a mar moderate enough in the member for East Toronto, in all conscience. ## At His Old Tricks !

The Richmond Hill Herald goes, s long way about the bush to say something anent the Era, in last week's issue .-Many and many a time, since its first publication, we have shown its duplicity and interepresentation; but like the igrunter " returning to his wallowing in the mire," so the sepient editor of that print persistently continues in his unfair mode of attack. We never asked, during the election of 1851, "what had Mr. BALDWIN done for the country;" but " what had he done for the County ?" by the late amended municipal act Suppose, however, we did, what had that .to do with presenting Hon. Mr. BROWN with a testimonial ? What we esid and done in 1854 was sustained by the Electors,-and that is more than the Hill man can say. Every Election from that time to the present has been carried in the constituencies around him contrary to his Gwillimbury Council on the 20th July, -advice and in direct opposition to his pit stoting that only one being present, no isble appeals and fearful forbodings; but action was taken.
